EIPM Workshop

Organising Innovation Days with Suppliers

At the EIPM Head Office in Archamps, France.

WORKSHOP FOCUS:

Positioning Innovation Days in the broader Innovation sourcing process – We have designed a simple game to put together the appropriate Innovation Sourcing Process.

Different formats for Innovation Days – We have identified three different generic formats: “Come and show”, “Go and see” and “Let’s do it”. We will investigate the relevance of each of these formats.

Managing the Innovation push pull boundaries – Should the Innovation Day be based on a specific brief or should you invite Suppliers to come up with their own Innovation proposal? Should you focus on existing Suppliers or bring some new players into the game?

Preparing and following up – Preparation and follow up are essential for Innovation Days to be productive.

EIPM Workshop

Organising Innovation days with Suppliers

22 June – Archamps, France

Innovation days should be seen as one step within a broader process.

They vary in formats and structures depending on what companies endeavour to achieve within specific contexts.

*During the workshop we will reflect on lessons learned and good practices
Companies will share their experience.*

About

As Purchasing teams increasingly support innovation, Innovation Days have gained popularity. At EIPM, we have gathered some lessons and best practices on how to organise such workshops.

Benefits for Participants

- ✓ Be inspired by examples / best practices from other companies
- ✓ Build your vision to develop the Innovation Sourcing Process in your company
- ✓ Exchange amongst peers on Innovation Days
- ✓ Prepare your next Innovation Day
- ✓ Develop your network and share ideas with EIPM Club affiliates
